

e-Learning for Healthcare (e-LfH) for STIF *Intermediate* Competency

Please note that eHIV-STI is not administered by BASHH and we cannot assist with registration/access problems - if you still have problems after using the information and resources provided here please contact e-LfH via their Support Form: <http://portal.e-lfh.org.uk/support/>

You will be asked to provide proof of completion of the e-learning sessions listed below to your Clinical Trainer. We strongly advise that you print off the associated e-learning activity report as you complete each session and retain safely. See back page for advice on producing e-learning activity reports.

PLEASE ENSURE YOU REGISTER FOR THE CORRECT PROJECT WHICH IS CALLED: e-Learning for Sexual Health & HIV (eHIV-STI).

There is another project with a similar name (e-SRH: Sexual and Reproductive Healthcare) developed by the Faculty of Sexual and Reproductive Healthcare which focuses mainly on contraceptive issues and does not contain the sessions required for STIF Intermediate Competency.

Once NHS users have registered for e-learning, there is no expiry time on the account.

Accessing e-Learning for Sexual Health & HIV (eHIV-STI)

eHIV-STI is accessible in a number of ways depending on your professional role (see below).

e-LfH registration information

This is comprised of two sections:

- 1. e-LfH registration and access**
- 2. e-LfH support tools for problem solving – if you encounter problems please use the support tools before contacting the e-LfH support team.**

SECTION 1: e-LfH registration and access

If you are employed by the NHS in the UK and have an NHS email address you can register for free access to eHIV-STI via the e-LfH Hub by completing the registration form on the e-LfH website: <http://portal.e-lfh.org.uk/Register>

Please note that NHS email addresses include @nhs.net, @trustname.nhs.uk and the equivalent in Scotland, N Ireland and Wales.

The way in which eHIV-STI is accessed varies.

- A. Doctors (including GPs) and practice nurses, working in the NHS (new e-LfH users)**
- B. Existing e-LfH users**
- C. Healthcare staff in NHS organisations in England signed up to the National Learning Management System (NLMS)**
- D. Other non-NHS staff**

A. Doctors (including GPs) and practice nurses working in the NHS (new e-LfH users)

If you are in this group you should complete the registration form on the e-LfH website: <http://portal.e-lfh.org.uk/Register>

You will receive access immediately.

B. Existing e-LfH users

If you already have an account with e-LfH and wish to gain access to eHIV-STI, please do not register again. Log in to the e-LfH Hub using your existing username and password, select the 'My Account' menu option and then 'Enrolment'. Programmes and applications, you currently have access to will already be ticked. Select Sexual Health & HIV (HIV-STI), then select the 'Save Changes' button (at the bottom of the list) to save your selection. The programme will be available in to you instantly within the My e-Learning menu.

View the help page for more information: <http://support.e-lfh.org.uk/my-account/enrolment/how-do-i-add-additional-e-learning-resources-to-my-account/>

C. Healthcare staff in NHS organisations in England signed up to the National Learning Management System (NLMS)

If you are NHS healthcare staff in England and have access to the National Learning Management System (NLMS), you can access eHIV-STI via the NLMS as your learning is recorded against your Electronic Staff Record (ESR).

The NLMS is an e-learning platform fully integrated with the ESR which means learning can be recorded against your portable employee record. If you wish to access via the NLMS, you should speak to your local learning and development department or click the link below.

<http://www.esrsupport.co.uk/nlms/access.html>

D. Other non-NHS staff (including those working outside the UK)

This group of users may need to pay for access to eHIV-STI.

Some people who deliver NHS services are employed by non-NHS organisations (THT, BPAS, Brook, Virgin Health, social enterprises) and your employer may need to negotiate access to e-learning for Health.

Non-NHS (and non-UK) users can now pay to access the required sessions for the STIF course:

<http://www.e-lfh.org.uk/programmes/sexual-health-and-hiv/how-to-license/>

Once payment has been received, details regarding how to access the e-learning will be emailed to you. Access is provided for 1 year.

SECTION 2: e-LfH support tools for problem solving

A range of support tools and information is available from the e-LfH website:

<http://support.e-lfh.org.uk/e-lfh-support-home/>

These include:

- A Technical Checker

It is important that users run this to ensure their PC meets the necessary requirements in order to play e-LfH content. Sometimes if pop-up blockers are disabled, the sessions will not open.

- A Quick Start Guide

This is a very useful two page guide to get users up to speed quickly with logging in and the main areas of the e-LfH Hub.

- Top Tips / Top questions asked
- **How to produce reports on your e-learning activity**
- A bank of support information for users

Please note that eHIV-STI is not administered by BASHH and we cannot assist with registration/access problems - if you still have problems after using the above information and resources please contact e-LfH via their Support Form: <http://portal.e-lfh.org.uk/support/>

e-Learning for Healthcare (e-LfH) for STIF *Intermediate* Competency modules to be completed pto

e-Learning for Healthcare (e-LfH) for STIF *Intermediate* Competency

e-HIVSTI sessions	
1.01	Sexual Behaviour and Infection Risk
1.02	Sexual History
1.03	Confidentiality in Sexual Health
1.04	Male Anatomy and Physiology
1.05	Female Anatomy and Physiology
1.07	Chaperones and Consent
1.08	Male Genital Examination
1.09	Female Genital Examination
1.10	Examination of Extra-genital Sites
