	10.5	Female Genital Mutilation		X		
	10.6	Domestic violence and abuse		X		
	10.7	Psychological Support: Trans Awareness		X		

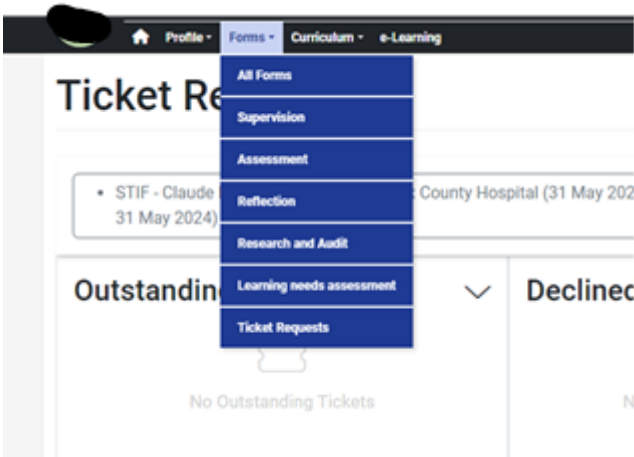

Sending a ticket on eportfolio.

You can send a ticket to anyone who has observed you completing one of the assessments. (For individual assessments it doesn't have to be your registered trainer).

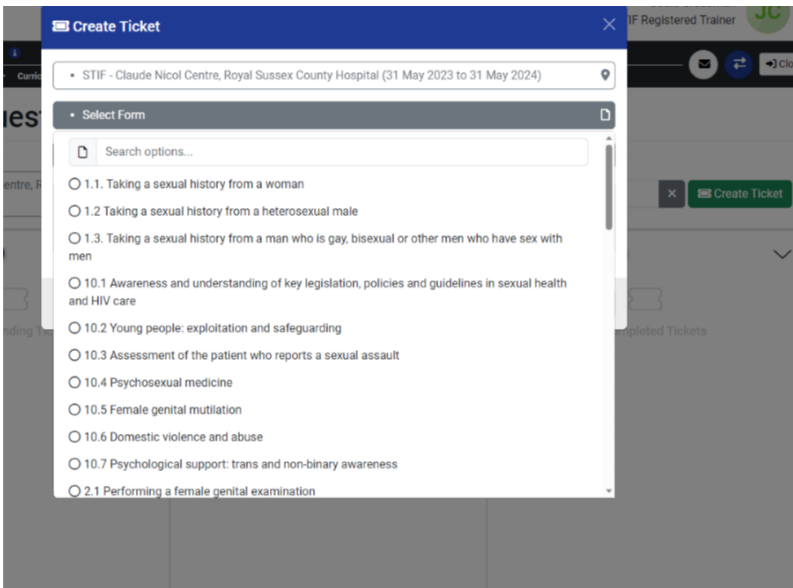

Log in to e-portfolio. This should show your training profile:

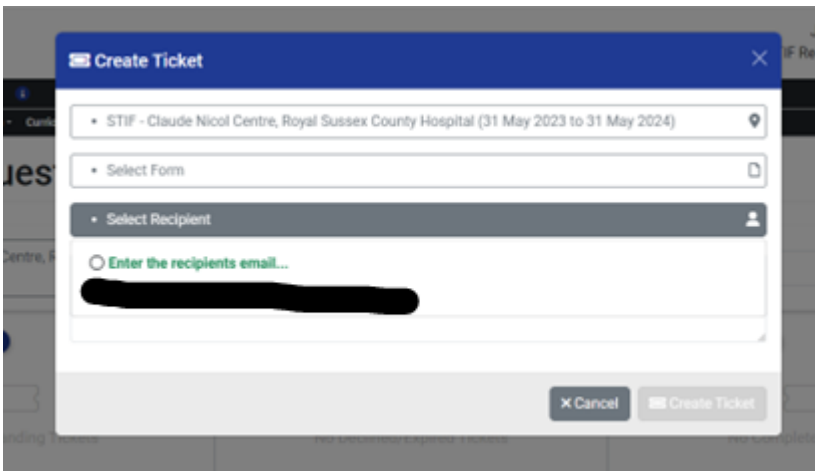

Click on the 'forms' menu, and select 'ticket requests'

Click on the green 'create ticket' button. This will give you the option to create a ticket:

Select the form you need, then enter the email address of who you want to send the ticket to (The clinician who observed you).

This will automatically send a ticket to the person who observed you, for them to complete the observation. If they do not complete it you can send a reminder by going back into the same ticket.
